

We are a leading UK manufacturer of engineering plastic materials, components and composites to a wide range of industries which include aerospace, electrical, transport and general engineering.

We currently have the following vacancy based at our Birmingham head office:

### **Maintenance Engineer**

We are looking for a multi-skilled Maintenance Engineer to join our team to carry out reactive and preventative maintenance on plant and equipment.

You will undertake a range of duties including:

- Breakdowns
- Repairs
- PPMs

You will also assist in carrying out planned and reactive maintenance, and mechanical plant works, mechanical installation, fault finding and continuous improvement.

We would be keen to talk with candidates who have previous experience as Multi skilled Maintenance Engineer with experience in a production environment to include presses, hydraulics, pneumatics, pumps & motors.

Welding experience would be advantageous.

Hours of work are Monday to Thursday 7.00 – 16.00 and Friday 7.00 – 12.00, with some Saturday working and overtime as required.

Job Types: Full-time, Permanent

Salary: £14.00-£15.00 per hour

Company benefits include BHSF payment, pension contribution and death in service policy.
